How to connect microsoft keyboard 3050

Work more effectively and comfortably with this Microsoft wireless Desktop 3050 black USB wireless mouse and keyboard combo. Customize shortcut keys for quick access to frequently used functions and programs with this black USB mouse and keyboard combo. The wireless design provides high freedom of movement and prevents you from having to detangle cords, while the quiet keys make this keyboard ideal for office settings or other highly populated areas. A built-in palm rest ensures typing for long periods of time is more comfortable. Advanced Encryption Standard protects confidential information, and the long mouse body provides support for your hand while you work or play. This Microsoft wireless Desktop 3050 USB wireless mouse and keyboard combo employs BlueTrack technology, ensuring mouse movements have incredible accuracy. Black keyboard and mouse set for improved productivity 2.4 GHz connection eliminates delays and interference from your computer to the mouse and keyboard. Mouse dimensions: 4.59" L x 1.66" H. Keyboard dimensions: 18.39" L x 7.83" W. Includes 4 AA batteries for easy setup. 104 keys keyboard and five button mouse for easy navigation. Meets or exceeds FCC, IC, MIC, MOC, roHS, NTRA, AES-128, WEEE, ANATEL, TELECOM, REACH, EAC, CITC, IDA, MSIP, ICASA, TRA, subtel, ICT, ACMA, SIRIM, FAC, SUTEL, RTTE, and sDoC standards. BlueTrack mouse allows you to have complete control over cursor movement. My pictures, my documents, calculator, e-mail, volume, mute, my favorite, skype, play/pause, previous track, next track, home page, and music keys make it simple to trigger common actions on-the-fly. Please note keyboard has white trim around it that may not be visible in the image. 3-year manufacturer limited warranty.
